

## Slim RO-Anlage

### ROSLR257538F1CK

A compact and minimalist system locked in an aesthetic casing. Dedicated for potable water filtration. It is possible to install under the counter or directly on the kitchen counter. The purified water contains no contaminants and is perfect to drink and prepare meals. The crucial part of the system is the membrane, which removes 99% of the contaminants. The system's high efficiency makes it perfect for use in a 50-person household or small company.

SLIM ROSLR257538F1CK

### The OXY-LOW cartridge:

The set elements are: cartridges, reverse osmosis membrane, connectors, 1/4" tube, water storage tank, faucet.

pH	ORP
8.0~9.5	-50 ~ -400 mV
Mineralien:	
Calcium (Ca), Potassium (K), Magnesium (Mg), Sodium (Na)

## Filtration stages:

- |    |                       |  |
|----|-----------------------|--|
| 1: | PP inline filter      | Pre-filtration: polypropylene inline cartridge, sediment filter, 5 µM. rating,               |
| 2: | Carbon inline filter  | Absorbing chlorine, taste and smell improvement: carbon obtained from burning coconut shells |
| 3: | Membrane              | Purifying up to 99% contaminants, some bacteria and viruses                                  |
| 4: | Mineral inline filter | Membrane support, enrichment of water  |
| 5: | OXY-LOW cartridge     | pH (8,0 ~ 9,5), ORP (-50 ~ -400 mV)<br>+ Ca, Mg, K, Na                                       |

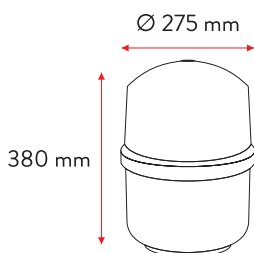

## Product technical information:

Membrane	75 GPD (Max. 270 l per day)	
Connectors	QC (quick-connect)	
Tanks	3,2 gal (15 l)	
Tank filling time	2 - 2,5 Hours	
Water connection	3/8"	
Working temperature	2 - 40°C	
Working pressure	2,8 - 6,0 bar	
Component replacement	Cartridges	6 Months
	Membrane	3 - 5 Years

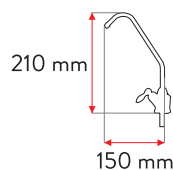

## Product measurements:

System casing

Storage tank

Faucet
